Service: Physiotherapy

Month: APRIL, 2026

Objective: Towards zero incidence burn sustained during delivery of electrotherapeutic modalities of thermal agent (sentinel event)

Report: For the month of **APRIL, 2026** we achieved our quality objective as tabulated below:

Month	Number of treatment	Zero burn sustained during treatment	Burn sustained during treatment	Target	Achieved	Not achieved
APRIL, 2026	517	0	0	100%	100%	0%

Result summary:

Month APRIL, 2026	Target 100%	Achieved 100%
-----------------------------	----------------	------------------

Graphical presentation:

From the data it shows that in 517 Session electrotherapeutic modalities and thermal agent has been rendered to patients. Rehabilitation service managed to prevent the incidence by taking few steps i.e sensation tests, Proper explanation, repeated checking during treatment, carry out scheduled service for machine, giving optimal intensity and etc.
